Garden Tulips
The two most popular classes of Garden Tulips are the Darwins and the Breeders. We here illustrate a fine selection of varieties recommended and grown for us by the best bulb growers in Holland, and imported by us in large quantities. All late flowering varieties.

Giant Darwin Tulips
(SELECT LIST)

① PROF. RAUWENHOFF—Full cherry rose with ivory white and blue star at base, flower of enormous size. Excellent forcer.
② SCARLET BEAUTY—Scarlet, very fine flower.
③ DAL ONGARO—Lavender violet, extra fine for forcing.
④ LE NOTRE—Bright rose, early forcing variety, strong stem.
⑤ CLARA BUTT—Clear self-colored salmon rosy pink.

Giant Breeder Tulips

② JAUNE D'OEUF—Rose lilac, broadly edged yellow.
③ APRICOT—Apricot, flushed orange.
④ ROI DE SIAM—Purple violet, very fine.

SIX OF THE

BEST GARDEN ROSES

Price, for 1 year old plants from 2½-inch pots, 15 cents each; set of 6 for 75 cents. Plants, 2 year old from 4-inch pots, 40 cents each; 6 for $2.00.

These have all proven their great value as worth while for garden planting. They are perfectly hardy after having become well established. Their colors are gorgeous, and bloom is abundant. The plants are from greenhouses and should not be exposed to extreme cold too suddenly.

Dixie

This wonderful Hybrid Tea Rose is about as satisfactory a garden Rose as we know of. Strong grower, bearing the greatest profusion of large, splendidly formed, cup shaped fragrant flowers of marvelous beauty. Color deep salmon pink. A great garden Rose.

Golden Ophelia

GOLDEN OPHELIA — The flower is of medium size, from a beautifully formed bud of bright, golden yellow. Has excellent texture; profuse in bloom; makes a marvelous "bush."

Mme. Butterfly

MADAME BUTTERFLY — Fancy colored Rose. The buds are a lovely shade of Indian red, yellow at the base; they are unique for corsages and for low table decorations. All the color tones are strong, making it a harmony of bright pink, apricot and gold.

Augusta Victoria

KAISERIN AUGUSTA VICTORIA — Continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white.

Red Radiance

RED RADIANCE — Similar to Radiance, in form and growth, except color, which is a floret scarlet. Excellent garden Rose as well as a good forcer. Form is fine, flower large and full cupped petals.

THERE IS NO CLASS OF FLOWERS
so much prized as those which are produced from bulbs. Closely following the disappearance of snow and long before ordinary outdoor flowers are in bloom, we may have, in their perfection, the hardy Crocus; then the fragrant and stately Hyacinths; a little later the varled and brilliant Tulips. These give an air of distinction and refinement to any lawn or garden, affording much pleasure to all who pass by.

WHEN TO PLANT
We would particularly emphasize the fact that fall and not spring is the time to plant all kinds of flowering bulbs. The bulbs should be planted as soon after September as possible, so that the roots will make good growth before the cold weather sets in. They may be set out from then until the ground becomes frozen.

An increasing number of this collection is sold each year, which is proof of its popularity.

1929 AUTUMN SEASON 1929

LILY CANDIDUM
ALSO KNOWN AS MADONNA OR ANNUNCIATION LILY
Imported by us direct from France
The old-fashioned pure white garden Lily. One of the hardiest flowers, snow-white, with yellow stamens and sweetest fragrance; it must be planted in the early autumn to succeed well, as it makes its leaf growth at once after planting, and prepares itself for early flowering. As spotlessly pure as the Easter, but far more fragrant. Large bulbs, 30 cents each; 4 for $1.00; 12 for $2.50.

LILY REGAL OR ROYAL LILY
"One of the most beautiful of all known Lilies. Highly recommended for general culture both for the open ground and for pots."

The outside of the flower is white, very faintly tinged with yellow at the base of the trumpet, and with pink at the point. The midribs are purple. Mature bulbs produce plants 3 to 4 feet high, bearing 3 to 10 flowers. Price, 40 cents each; 3 for $1.10; 6 for $2.00.

NAMED DUTCH HYACINTHS
LARGE, PERFECT BULBS OF FINEST QUALITY

We have endeavored to get the very best in quality from best Holland growers. We import direct from the best known growers and customers may be assured that no better bulbs are to be had for the price asked. For winter and early spring flowering nothing surpasses the Hyacinth. It is sure to bloom and give satisfaction in the house during the winter or in the garden in early spring. Its large spikes resemble nothing else in cultivation. Rather than offer a long, confusing list of varieties, we have carefully selected a list, embracing all the shades of this beautiful flower, each one being the largest, strongest and best of its color. Plant Hyacinth bulbs 4 inches deep.

On account of scarcity and high price of DOUBLE FLOWERING HYACINTHS, we do not offer them this season. The single flowering varieties are fast displacing them.

Specially Selected Hyacinths

This list contains such only as are real beauties, and a few varieties, which are not entirely new, but to which we wish to draw your special attention. Price, 13 cents each, six for $1.00, postpaid.

ARENTEINE ARENDSSEN
Snow-white. The spike is unusually well filled and has a perfect round shape. The broad, wide open petals are of intense whiteness and make the flower look unusually bright and pretty.

BUFF BEAUTY
Buff orange-yellow, long narrow truss on strong stem. A very peculiar color.

GENERAL DE WET
Light pink. Splendid for bedding as well as for forcing. The medium sized bells are of a lively light pink color with a lighter center and form a big, loose spike.

LADY DERBY
Bright rose-pink. Is rapidly becoming the leading pink pot hyacinth owing to its lovely shade of pink, its perfect spike on a strong stem and its splendid forcing qualities.

MYOSOTIS (Forget-Me-Not)
Beautiful blue, the only variety of this shade, large, strong spikes. Early flowering.

PERLE BRILLIANT
Light blue, tinged lavender. Produces an enormous spike of perfect shape and a big, smooth bulb. One of the best of the latest blue varieties.

Eight Superfine Single Hyacinths

We consider the Single Hyacinths more useful and valuable than the double varieties. They are better for forcing, more vigorous in growth, and produce stronger spikes of bloom; which are generally of better substance.

Price, 16 cents each, or the Full Set of Eight for $1.20, postpaid.

INNOCENCE—Pure white, very large, compact spike, fine for early forcing.

GERTRUDE—Dark pink. The most popular pot and bedding Hyacinth, owing to its color and compact growth. Grown in larger quantities than any other kind.

GIGANTEA—Large, tall spike; large and very shapely, with drooping bells. Flowers shell-pink inside and deep pink outside, touched with violet. A superb sort.

GRANDE BLANCHE—Blush-white. Called also the white Regulus, being a sport of this old variety. Splendid bedder and early forcer.

KING OF THE BLUES—Rich dark blue, the finest of the deep blues; extra large, well furnished broad spikes with large bells; erect and fine for pots.

KING OF THE BELGIANS—Bright scarlet. The most popular of the scarlets. Its upright well-filled spikes make it a good pot Hyacinth and as clear bright colors are mostly used for bedding, it is one of the most popular bedders. Immense stock.

LORD BALFOUR—Lilac-rose tinged dark violet; very early, enormous truss; the best in its color.

YELLOW HAMMER—Golden-yellow. The most popular of the yellows and a splendid forcer. The medium-sized bells form a very compact, ball-shaped truss, which makes one think of a hammer, hence its name.

See First Page of Cover.

BREEDERS IN SPLENDID MIXTURE, 75 CENTS PER DOZEN; $6.00 PER 100.
GIANT DARWIN TULIPS

Price, 8 cents each; 85 cents per dozen; $6.50 per 100, Postpaid.

The Giant Darwin Tulips are late flowering Garden Tulips, and produce very large bowl-formed flowers of symmetrical shape and lasting wax-like substance on tall, strong stems, two to three feet high, and are exceedingly beautiful and effective grown in groups, in the shrubbery or hedgeborder, or in gardens with a background of greenery. They by far surpass in color and brilliancy anything before known in Tulips. They include almost every conceivable color and shade. Tulip bulbs should be set 3 inches deep, about 6 inches apart, so that rows are 8 to 10 inches apart.

ISIS—Fiery crimson-scarlet with blue base, large and beautiful.
KATE GREENWAY—One of the largest and latest of all the Darwins. A large flower of white suffused with lilac; tall grower.
MAUVE CLAIR—Rich mauve, very beautiful.
NAUTICAS—Large, long flower, brilliantly colored, dark scarlet with blue centre.
PRIDE OF HAARLEM—Brilliant rose-carmine with blue base. This is one of the oldest varieties, but hard to beat yet in color and size. Most flowers have more than six petals, which makes them look semi-double sometimes. It will remain a standard variety as long as Darwins are used.
QUEEN WILHELMINA—Very large flower. Tall stem. Flesh tinted rose.
REV. EWANK—Silver yellow, with better yellow center; long, large, pointed flower. A very fine shade.
TULIPE NOIR—Rich, glossy black-maroon, one of the best dark varieties. A popular novelty.
WHITE QUEEN—White. Can be called the only white Darwin. It opens rosy-white, but passes off pure white. One of the most popular varieties, which can be easily forced.
YELLOW DARWIN (New)—A beautiful and striking Tulip having a fine deep yellow flower; color, solid; very fine.
ZULU—Rich velvety purple-black, large egg-shaped flower.
BRONNE DE LA TONNAIE—A long and beautiful flower; clear carmine-rose at the midrib, toning off to soft pink on the edges; base white, tinged blue; height twenty-four inches. The leading bedder of the pink Darwins, keeping its brightness and coloring up to the last, no matter what kind of weather it is in.
BARTIGON—One of the most popular scarlets. The flower is large and carried on a tall, stiff, stem.
CLARA BUTT—A large flower of remarkable beauty; coloring an exquisite shade of soft salmon-pink shaded over; height 20 inches.
DREAM—A very large deep violet.
FARNCOMBE SANDERS—One of the largest and most beautiful of all Darwins; color brilliant, dark rosé red, with a clear white base.
GLOW—Bright crimson-scarlet. A variety of unsurpassed qualities for bedding, but too little known. The unusual yellow, and strong stem holds the big flower up perfectly. The flower lasts very long and the bright crimson color never fades. One of the brightest and best of the Darwins.

SUPERFINE, MIXED DARWIN TULIPS

Our supply of these comes from a specialist who grows over fifty sorts, most of which are represented in this mixture. Price, 65 cents per Dozen; $5.00 per Hundred. (50 at 100 rate.)

Late or May-Flowering Cottage Garden Tulips

Coming into bloom two or three weeks later than the early flowering types, and extending the Tulip season over a period of four weeks or more. On account of their extreme hardiness, they are specially adapted for the permanent hardy flower border, where they should be liberally planted in clumps or masses. They may also be naturalized in grass, wild gardens, etc. For bedding they are superb, while as cut flowers, having long stems with flowers of great substance, they stand in perfect condition for a long time. In planting, the bulbs should be set a little deeper than early Tulips, a covering of 4 inches being about right.

Leading Varieties of Garden Tulips

Price, 7 cents each, 75 cents per dozen, $6.00 per 100.

Our Collection Embraces all the Best Types of the Garden Tulip and Your Order Should Include at Least a Few of these Most Satisfactory Bulbs.

GESNERIÁNA SPATULATA—The grandest Tulip in existence. Tall growing and late blooming, with large, long leaves and tall, erect flower stalks, which support great waxen blooms, larger than teacups, of the most vivid, glossy coral red, each flower showing a deep blue-black blotch at the base that further enhances its beauty; in bloom a long time.

PARROT OR DRAGON TULIPS

The most beautiful and interesting class of late flowering Tulips which should be in every garden. The flowers are very large and perfect in shape, the petals are corrugated and toothed, while the color is the most striking combination of crimson and golden-yellow, streaked and edged with green, resembling the plume of a parrot, whence these Tulips derive their name. A bed of these makes a gorgeous display, paying a hundred fold for any trouble that may be bestowed upon them. Fine large bulbs, mixed colors, price, six for 35 cents; 65 cents per dozen; $5.00 per hundred, postpaid.

GIANT CROCUS IN COLORS, WHITE, BLUE, STRIPED, YELLOW

HUNDRED, POSTPAID.

AMARYLLIS

AMERICAN HYBRIDS—A magnificent strain, and we know of nothing that we can recommend that will give the amateur greater pleasure for his window garden. They embody with vigorous growth free-flowering habit and enormous size of the individual flowers, a really wonderful range of colors varying from deep crimson to bright orange-scarlet, and from light rose to almost pure white, many of them beautiful combinations in stripes and variegations. Mixed varieties only in very strong bulbs.

Price 60 cents each; 3 for $1.60, 6 for $3.00.

Feathered or Cockade HYACINTHS

A real curiosity. First, a frizzled cockade-like spike an inch or two in length appears above the soil, and as it slowly rises on its long stalk it becomes five to six times as long as at first, developing into a long feathery plume, and lasting for weeks in that condition. One of those pretty, odd things that everybody likes. Perfectly hardy in the garden and fine for pots. Price, twelve for 50 cents.

GRAPE HYACINTHS

Very pretty, producing flowering spikes about six inches high, with little round bells so arranged as to resemble a bunch of grapes. Admirable for permanent beds and edgings and partially shaded situations, where they should be planted in groups of one dozen or more, where they will soon spread and being perfectly hardy will take care of themselves. They are very pretty when grown six in a pot in the house for winter flowering.

BLUE—Price, 40 cents per dozen; $3.25 per 100.

WHITE—Price, 50 cents per dozen; $4.00 per 100.

FRITILLARIA MELEAGRIS

Guinea Hen Flower

Singular dwarf spring-flowering plants, bearing large, pendant, bell-shaped flowers of various colors, yellow, white, black, purple striped and splashed and checkered in the most curious way. They are invaluable for pot culture and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation. Mixed varieties, 10 cents each; $1.00 per dozen; $8.00 per 100.

IXIAS

The graceful flower spikes of theIxias remind one of Gladiolus, but the flowers are very distinct, being round and well opened. Their brilliant colors and vividly contrasting fronds have made them quite popular. For pot culture, plant six in a five-inch pot, and treat as Hyacinths. For outdoor culture they should be planted in a somewhat sheltered situation and protected with leaves or straw.

MIXED Sorts—Many varieties of rich shades and colors. Price, three for 10 cents; 35 cents per dozen.

Bed of FIFTY Large Flowering Tulips

FOR $2.50 We have offered this same bed for several seasons, and it is becoming more popular each year. ALL SEASONS MIXTURE.

This collection will contain a splendid mixture of Single and Double Early, Single and Double Late, Parrot and Darwin Tulips, including many of the finest feathery plumes, and the advantage gained by ordering this collection is that it will produce flowers during a much longer period than any other collection. For a fine display five days before the bed in which you plant them will be ablaze, and will present all the colors known among Tulips. We can most heartily recommend this collection to our patrons. It will make a magnificent circular bed three and one-half feet in diameter. Price, 50 bulbs for $2.50, postpaid.

CROCUS

For Early Flowers of Spring. Large Flowering Varieties.

Beautiful for growing in pots, and to the Earliest to bloom on the lawn in the Spring.

DIRECTIONS FOR PLANTING

—With a trowel or spade make a slanting opening about two inches deep, put in the bulbs, then with the foot press back the sod. This is an easy way to plant flowers that will be a sheet of bloom almost before the grass is green. They will care for themselves, blooming early amid the grass, and dying down to the bulb in ample time to be entirely out of the way of the lawn mower.

WINTER-BLOOMING FREESIAS

WHITE FREESIAS (Purity)—A grand Freesia. The flowers are two inches long and about the same in width, and borne in clusters of six to ten. The body of the flower is pure white, with lower segments spotted lemon-yellow. The perfume is most delicate. Selected bulbs. Price, 50 cents per dozen.

GIAN SNOWDROPS

SCILLA SIBIRICA

The Siberian Scilla or Squill, has flowers of a lovely ultramarine blue color, borne in graceful spikes. In the house it blooms early, like the Roman Hyacinths, and forms a beautiful contrast with them. In the open ground they are quite hardy, and especially fine planted in small beds or with Snowdrops, and look lovely as soon as the snow is gone. Price, 50 cents per dozen.

SCILLA ALBA

This has exactly the same flower as Scilla Sibirica, excepting that it is pure white. Price, 50 cents per dozen.

Great Surplus Bulb Collections

In importing enormous quantities of bulbs from Holland, France, China, Japan, Bermuda, etc., we find it impossible to estimate what the exact demand will be, and to order just the right quantity of each variety, so that we usually have a surplus of many varieties including the very choicest and most expensive. As they cannot be kept over, we must close them out at the end of the season, and offer them to our patrons in collections, strictly of our own selection, at a big sacrifice rate.

These collections may be ordered at any time, but will not be sent until the rush trade is over, about November 10th.

Surplus Bulb Collection No. 1, for One Dollar, Postpaid

This will consist of a very generous lot of miscellaneous bulbs, and will be sent by mail, for $1.00.

Surplus Bulb Collection No. 2, by Express (not prepaid), for $2.00

This will contain a larger proportion of the heavier and more expensive bulbs, of the finest varieties, and will be worth far more than the price asked for it. If express shipment is not desirable, send 25 cents extra for postage.

EITHER OF THESE COLLECTIONS WILL AGREEABLY SURPRISE AND PLEASE YOU.

COLCHICUM

A WONDER OF THE FLORAL KINGDOM. DON'T FAIL TO GET A FEW OF THEM.

These Bulbs are Ready Now. Should be Ordered Early for Best Results.

Rosy tinted blossoms shade to a pearly white.
Simply place the bulb in a dish, bowl, saucer or on the table or window sill and watch its beauty unfold.
When the blooming has ceased, the bulb may be potted or planted in the open garden or lawn, where the following spring they will develop a beautiful, deep-colored foliage.
Remove from bed about July first, dry the bulb in darkness for a few weeks and use for indoor decoration, as at first.

Price, large bulbs, postage paid, 30c each; 6 for $1.60; 12 for $3.00.

EVER-BLOOMING HYBRID TEA ROSES

OUR “GARDEN COLLECTION” OF

CHOICE EVER-BLOOMING TEA ROSES

For Outdoor Bedding or Indoor Pot Culture

**PRICE, YOUNG PLANTS, 15c EACH; 12 FOR $1.50. TWO-YEAR-OLD PLANTS, FROM FOUR-INCH POTS, 40c EACH; 12 FOR $4.00.**

THE ROSES in this collection are highly valued because of their fine colors and exquisite tea fragrance. They will bloom freely from June until November. Some of them are particularly famous for the large size, beauty and brilliant colors of the bloom. If planted in the spring so that they may become thoroughly established during the summer, they will continue to flower with few exceptions, prove hardy here, with protection during the winter. They are the product of years of experience and our improved methods of culture, which insure plants of the greatest possible vitality and abundance of bloom.

**Alexander Hill Gray** Color is deep lemon-yellow which intensifies as the blooms develop; flowers large, of great substance and perfect formation; it has a high-pointed center from which the petals gracefully reflex. We recommend it highly.

**Bridesmaid** The most popular pink Tea Rose. Thousands of this variety are grown every year for cut flowers, and it is also very desirable for summer bedding.

**Blumenschmidt** Pure citron-yellow, outer petals edged tender rose, a sport from Franziska Kruger, which it resembles in form, and which has a more vigorous growth. Winner of three first premiums.

**Clothilde Soupert** Color is a French white, deepening to a rosy-blush in the center, exceeding in distinctness of shadings the well known Malmaison. Its greatest value lies in its compact, vigorous habit and wonderful profusion of bloom. Form and substance of the flowers are so perfect that the hottest weather does not cause a deterioration of either, so that even in mid-summer a bouquet of splendid buds and open flowers can be obtained from this variety. Hardy with protection.

**Etoile de Lyon** This magnificent Tea Rose, south of the Ohio river, has proved to be perfectly hardy. Blooms in the greatest profusion and each bud in a gem. Flowers are very large, double, full and deliciously fragrant.

**Mlle. Franziska Kruger** The striking color of this handsome Rose places it at once as one of the most popular; the flowers are large and very double, as well as of excellent substance, and the full flower is very double measuring from three to four inches in diameter.

**Helen Good, the Beauty of New York** Handsome flowers of clear apricot yellow; hardy; of much vigor, and with an autumn blooming habit.

**Souvenir de Pierre Notting** The bloom is very large, perfectly full, elegant form; has a beautiful long bud; the colors are very bright, distinct and clear and have no unpleasant tones—orange-yellow, bordered in carmine-rose. The color is clear yellow, with an orange-red base.

**Mrs. Robert Peary, or Climbing Kaiserin** The flowers are extra large, full, deep and double; are of excellent substance and produced on long, stiff stems, like a forcing Rose; buds are long and pointed. Pure ivory-white. Fragrance is delicious.

Stim-U-Plant

**THE IDEAL YEAR-ROUND FEEDING METHOD**

Feed your plants as you feed yourself. Do not give them breakfast, dinner and supper at one time, for an overfed plant gets indigestion and is harder to get back to healthy growing conditions again than one that has been underfed.

Plants in pots, especially when growing vigorously, soon use up the nourishment that is in the soil, therefore, to keep your plants healthy, feed them about every ten days or two weeks and avoid the error of feeding too much at one time.

**STIM-U-PLANT TABLETS** are an ideal food for potted plants. They are clean, they take up small space and one-quarter of a tablet is enough to use at a time on small plants.

**EASY TO USE**

Simply insert the tablet about one and one-half to two inches below surface of soil at the roots, where it dissolves and produces the qualities which mean the same to a plant as blood to a human being.

Price, postpaid: 30 tablets, 25 cents; 100 tablets, 75 cents; 1,000 tablets, in bucket, $3.50.

The blooms last from a month to six weeks, and are borne in immense clusters almost hiding the plant. The color is bright coral red, changing to a delicate pink. It is past the power of speech to describe it. A wonder. Price, 25 cents each; 3 for 65 cents.

The leaves alone possess all these charms, while the dainty flowers add lightness and grace. Give them a soil composed of rich loam, woods earth and sharp sand. They require a warm, moist atmosphere and a shady situation. Do not allow the sun to strike the leaves while wet, and do not over-water. Nothing can surpass them for the window or conservatory culture; they may be planted in a shady situation under trees or alongside of the house. Rex varieties make immense leaves. This species of Hydrangea is generally hardy in the South and

throughout the Middle States with some protection during winter

of growth and flowering.

**FERNS** Most Beautiful of Decorative Plants

FOR THE HOUSE AND CONSERVATORY

No plants are easier to grow or more ornamental for house or conservatory culture than these grand new Ferns. They require very little care or attention, and produce a finer effect than any other plants you can get for many times their cost. The varieties listed herewith include the newest and most beautiful sorts to date. The ordinary temperature of the living room suits them nicely, and their new growths will soon surprise you with their graceful beauty.

ANY OF THE FOLLOWING FERNS IN NICE YOUNG PLANTS, 20 CENTS EACH; 6 FOR $1.00. STRONG FOUR-INCH POT PLANTS, 50 CENTS EACH; 6 FOR $2.50.

**“TEDDY” JUNIOR**

(The Fern for Every Household)—It is a sport from the now famous Roosevelt Fern, and while its habit of growth is to produce a shorter frond, it retains all the valuable characteristics of the parent plant. “Teddy” will produce about four times more fronds than any other Fern ever introduced.

**VERONA**

A handsome new variety of the Elegantissima type, somewhat resembling the N. Whitmani, but with finer ostrich plume foliage and with a stiffer mid-rib which makes the fronds stand up better than most varieties of the lace ferns.

**THE “ROOSEVELT FERN”**

(Nephrolepis Roosevelt)—In general characteristics it resembles the Boston Fern, but with two points of great excellence over that variety. First it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other Fern. It is highly recommended.

**THE POPULAR BOSTON SWORD FERN**

(Nephrolepis Exalta Bostoniensis)—In the vicinity of Boston no other plant is used so extensively as this graceful Nephrolepis, which differs from the ordinary Fern in having much longer fronds, which frequently attain a length of four feet. These fronds arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern.

**OSTRICH PLUME FERN**

(Nephrolepis Whitmani)—An improvement on the Nephrolepis Elegantissima, with still more gracefully divided pinnae, giving the whole plant an airy lace-like appearance; makes beautiful symmetrical plants even in small sizes and large specimen plants are beautiful beyond description.

**NEPHROLEPIS SPARROW**

We take pleasure in offering to our customers this valuable variety, a true sport of the Neph. Superbissima (or fluffy Ruffles) Fern. It has the dark green foliage of its parent, which, with its beautiful crested fronds, makes it a most unique, distinct and desirable Fern. One of the most distinguishable features of this Fern is its robustness, which makes it a very rapid and easy grower, a Fern the amateur can grow with success. We recommend this variety most highly.

**DWARF GROWING FERNS FOR DISHES**

We have grown a large quantity of small Ferns suitable for Fern dishes. The use of ferneries as ornaments for the dinner table is now very general. Nothing makes so fine an ornament, or is so well adapted for the purpose.

**Crytomium Falcatum**

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is coarser than the Tremula Fern, it is very graceful and is becoming very popular. The leaf is a rich, glossy green, and each leaflet is about the shape and size of a Rose leaf. The fronds are fine for cutting on account of their lasting quality.

**Pteris Wimsetti**

Green leaves, with the ends very peculiarly twisted. It is one of the best varieties for Fern dishes, being a short, compact grower. Will stand much rough treatment.

**Adiantum Cuneatum**

(Maiden Hair Fern.) A very beautiful and graceful Fern, its delicate fronds being much used for cut flower work.

**Pteris Cretica Alba Lineata**

A very handsome Fern, nicely variegated, grows very rapidly into handsome plants.

**WATCH-EM-GROW PLANT FOOD**
